

DEPARTMENT OF THE ARMY  
U. S. Army Corps of Engineers  
Washington, D. C. 20314

EM 1110-2-3506

DAEN-ECE-G

Engineer Manual  
No. 1110-2-3506

20 January 1984

Engineering and Design  
GROUTING TECHNOLOGY

1. Purpose. This manual provides technical criteria and guidance for civil works grouting applications. Information on procedures, materials, and equipment for use in planning and executing a grouting project is included, and types of problems that might be solved by grouting are discussed. Methods of grouting that have proven to be effective are described and various types of grouts and their proportions are listed.

2. Applicability. This manual is applicable to all field operating activities having civil works responsibilities.

3. Discussion. Grouting in civil works activities is performed as: (a) an increment of permanent construction, (b) a post-construction remedial treatment, and (c) an increment of expedient construction or repair.

FOR THE COMMANDER:

PAUL F. KAVANAUGH  
Colonel, Corps of Engineers  
Chief of Staff
